

Dear staff and students of EBS,

My deepest thanks go out to the students, staff and parents of Europese School Bergen for your warm welcome, enthusiasm and support of the Uncle Jim IM4U Anti-Bullying Workshop. I travel the world doing these workshops and my experience at the, EBS was singular and memorable. You brought a flexibility, and openness to the IM4U event that made it easy to have fun, learn and grow! Your input was invaluable!

I was especially touched by the energy and excitement of the students and staff who joined me on stage, not to mention the secondary students who wrote a terrific song and performed it personally for me! And last, but not least, a big Schmoopie hug for the generous input from the staff on the presentation of the material.

I look so forward to continuing to work with you all through distance learning and can't wait until I can return to ESB to see you all again! Thank you for the opportunity to visit your community and be part of your process of learning, living and growing!

Respectfully and with Gratitude,

Uncle Jim

IM4U
